

Table Saw & Accessories

General International 10" Deluxe Builder's Tablesaw

Heavy duty precision cast iron ribbed table with T-slots for mitre gauge has two solid cast iron extension wings. The 30" or deluxe 52" rip fence system makes quick and precise adjustments. A 2 HP, 115/230V, 1 phase motor provides plenty of power, with a prewired 230V motor to switch connection for easy setup. 4" dust collection outlet, dado insert, and deluxe cast iron miter gauge is included.

Feather Board

This wood feather board will keep your stock tight against the rip fence and down on the table during ripping operations giving you more control. Will fit in standard 3/4" wide mitre slots.

#19134

\$ 15.95

Deluxe Feather Board

Our plastic featherboard keeps stock up against the fence on tablesaws, shapers, router tables, etc. Fits in standard mitre slots.

Biesemeyer T-Square Saw Fence Systems

Biesemeyer T-Square saw fence system fits any new or used table saw, making it a faster more efficient woodcutting tool. The T-Square's hairline pointer and built-in tape allow you to make precision setups, cut after cut. The fence locks only at the front of the tablesaw. Its three-point locking system ensures that the fence will be precisely parallel to the blade and will provide a smooth, clean cut accurate to 1/64th of an inch. All parts are constructed of rugged material for many years of dependable use. Designed and warranted for commercial users who rely on their tablesaw on a daily basis and cannot afford poor results. This system will provide 50" cut capacity to the right of the blade and 12" to the left side of the blade.

#78-900

\$ 359.00

Biesemeyer Super Fence Systems

Same high quality features as the commercial fence system but designed for the home hobbyist and small cabinet shop's budget. Purchase the fence you need by the right of the blade capacity. (Not warranted for commercial use).

- | | | |
|---------|-----------------------------|------------------|
| #78-930 | 12" Left/28" Right Capacity | \$ 259.00 |
| #78-931 | 12" Left/40" Right Capacity | \$ 269.00 |
| #78-935 | 12" Left/52" Right Capacity | \$ 279.00 |

Tapering Jig

Cut tapers with ease when using this jig on your tablesaw, band-saw or radial arm saw. Converts to left or right hand use and is adjustable up to a 15° taper. Very easy to use and constructed from aluminum.

#19066

\$ 19.95

Safe "V" Shoe

Unique because of a bottom groove that applies pressure down and in towards the fence. Made from high density plastic. Sold per pair.

#10223 **\$ 7.95**

Delta Sliding Jig

Provides greater accuracy and safety when cutting angled tenons, straight tenons, and dados on either left or right-tilted table saws. Fits standard 3/8" x 3/4" miter gage grooves.

#43-188

\$122.15

Zero Clearance Table Saw Inserts

- | | | |
|---------|---|-----------------|
| #DL-1U | 13-3/8" x 3-3/4" Delta Universal | \$ 21.95 |
| #JT-1 | 12-1/2" x 3-9/16" Jet/Powermatic 64 | \$ 21.95 |
| #JT-2L1 | 13-5/16" x 3-11/16" Jet XACTA Left Tilt | \$ 22.95 |
| #PM-1 | 14-7/16" x 4" Powermatic 66 | \$ 21.95 |
| #GE-1 | 13-13/16" x 3-1/2" General #350 | \$ 21.95 |

The Zero Clearance concept is simple; the blade cuts its own perfectly sized slot by being raised through a machinable "blank" insert. Inserts are 1/2" thick high-density phenolic laminate, with bonded laminate surface-offering superior rigidity, flatness, durability, and low friction. User friendly features include top-accessible leveling screws, lateral adjustment screws for a vibration free fit, rear anti-lift pin (except JT-1) and a precut blade pocket on bottom that provides clearance for fully retracted blades and bevel cuts. Instructions included. Use only carbide tipped blades. Colors may vary.

Magnetic Featherboard

NEW!

Powerful magnets hold the Grip-Tite guide solid to any cast iron or steel tabletop. As a board is pushed between the Grip-Tite guide and the fence, flexible polycarbonate feather blades force the board down and against the fence. Narrow boards can be cut, shaped, or jointed without putting your hands near the blade.

#GRIP-TITE

\$ 34.95

Push Stick

Specially designed handle for comfort and grip. Sold individually.

#10221

\$ 4.95

Anti-Kickback Mechanism

These safety colored yellow rollers rotate clockwise for tablesaws and prevent dangerous kickback. Also maintain even pressure against the saw table and fence so that ripping long boards is a very easy operation. If you work alone, this table saw accessory will really speed up your ripping operations while providing a higher degree of safety for the operator. Optional track makes adjustments a breeze. Sold in pairs.

#W1104

\$ 36.95

Saw Gauge

This useful and quick acting gauge will allow you to measure the blade height of your table-saw or the angle the saw is set to in a matter of seconds! Use the left tilting version for left tilt saws, the right tilt version for all others.

- | | | |
|-----------|--------------|-----------------|
| #338-2500 | (LH Version) | \$ 28.20 |
| #338-2000 | (RH Version) | \$ 28.20 |

9-in-1 Saw Aid Tool

Of course it works like (1) a safety push stick, with a long, narrow hold-down surface. But this tool also works as: (2) a table saw depth gauge, (3) router depth gauge, (4) 6" hook rule, (5) 30°/60° angle gauge, (6) 45° angle gauge, (7) 9" rule, (8) 90° engineers square, (9) center finder. The depth gauges and center finder are accurate to .005"; engineers square is accurate to .01". Heavy-duty, glass-filled-nylon tool is guaranteed for 5 years against breakage!
